SUMMARY

Artificial Intelligence and Computer Science graduate with a strong foundation in programming, problem-solving, and modern software development practices. Skilled in Python and full-stack development, with a growing interest in machine learning and intelligent systems. A quick learner who thrives in collaborative environments and approaches challenges with a structured, analytical mindset.

EDUCATION

Crescent Institute of Science and Technology **Expected 2028**
Master of Computer Applications (MCA)

Crescent Institute of Science and Technology **June 2026**
Bachelor of Computer Application (Artificial Intelligence)

NSN Matriculation Higher Secondary School **April 2023**

PROJECTS

AI-Based Theft Detection System | [GitHub](#)

- Developed a computer vision-based surveillance system to detect suspicious activities in shop environments using CCTV footage.
- Implemented object detection and behavior analysis to identify potential theft scenarios.
- **Technologies:** Python, OpenCV, Machine Learning, Firebase

Fake Image Detection System | [GitHub](#)

- Built a machine learning-based system to identify manipulated or fake images using digital image processing techniques. Focused on feature extraction, model training, and performance evaluation.
- **Technologies:** Python, Machine Learning, Digital Image Processing

Real-Time Sign Language Translator | [GitHub](#)

- Designed a real-time hand gesture recognition system to translate sign language into text using live camera input. Utilized landmark detection for accurate gesture tracking and classification.
- **Technologies:** Python, OpenCV, MediaPipe

AI Air Canvas | [GitHub](#)

- Built a gesture-based drawing application enabling touch-free, air-drawing using real-time hand tracking and landmark detection.
- Implemented dynamic brush sizing based on depth and multiple virtual drawing tools for an interactive, camera-driven interface.
- **Technologies:** JavaScript, HTML5, MediaPipe

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C
- **Frontend:** HTML, CSS, JavaScript, React, AngularJS
- **Database:** SQL, MongoDB

CERTIFICATIONS

- Salesforce Agent Force Specialist
- Oracle Cloud Applications
- MyCaptain - Python
- MyCaptain FullStack Development (HTML, CSS, JavaScript, Node.js, Python, SQL, NOSQL)
